## Funding Allocation and Justification for KWT ICO Public Sale

### **Listing KWT on Top-Tier Exchanges (50% of Public Sale)**

**Purpose:** Allocating half of the raised funds to list KoinWave Token (KWT) on top-tier exchanges.

**Benefit:** Listing on major exchanges increases visibility, accessibility, and credibility of KWT. It attracts a larger audience of potential investors and traders, enhancing the token's market presence and liquidity.

### **Liquidity (20% of Public Sale)**

**Purpose:** Providing 20% of the raised funds as additional liquidity for KWT.

**Benefit:** A robust liquidity pool ensures stable and efficient trading experiences, reduces price volatility, and builds investor confidence. Adequate liquidity is essential for maintaining a healthy and attractive market for KWT.

### **Operations (30% of Public Sale)**

**Purpose:** Utilizing 30% of the raised funds for ongoing operations, including development, marketing, and administrative expenses.

**Benefit:** Sustained operational funding supports the continuous growth and development of the KoinWave ecosystem. It enables the team to execute strategic initiatives, enhance the platform's features, and expand market reach, ensuring long-term success and value creation for investors.

### **Why This Allocation is Crucial**

This structured allocation of funds ensures that the essential aspects of the KoinWave Token project are well-supported and primed for success. Prioritizing exchange listings enhances market accessibility and trust. Allocating substantial funds to liquidity ensures a stable and attractive trading environment. Supporting operations guarantees that the project can continue to innovate, grow, and adapt to market demands. By strategically distributing the funds raised during the public sale, we aim to build a solid foundation for KWT's long-term success and deliver value to our investors.

### **IMPORTANT WARNING FOR KWT INVESTORS**

Be Cautious When Buying KoinWave Token (KWT)

It is essential to exercise caution and ensure that you are purchasing KWT through official channels only. KoinWave Token (KWT) will never approach anyone first. If you are contacted by someone claiming to represent KWT, it is likely a scam.
